AML Compliance Report — Tony Blair

Generated: 2024-06-15 14:23:07 | **Prepared by:** Chief Risk Officer | **Classification:** CONFIDENTIAL

Executive Summary

DECISION: FAIL SCORE: 87 REASONING: Tony Blair is a high-risk Politically Exposed Person (PEP) with direct officer roles in two offshore entities and an intermediary in high-risk jurisdictions, creating a tightly linked, opaque corporate structure with no legitimate business justification for his involvement in BVI and Cayman Islands entities.

3. Neo4j Graph Analysis (GRAPH_IMAGE_PATH: /var/lib/neo4j/exports/graphs/tony_blair_network_20240615_142307.png)

Tony Blair is directly connected as an officer to:

- Blair Holdings Ltd (BVI, incorporated 2010-03-15, status: Active) — Role: Director
- Blair Trust (Cayman Islands, incorporated 2012-07-22, status: Active) — Role: Trustee
- Global Corporate Services Ltd (BVI, address: Road Town, Tortola, BVI) — Role: Service Provider

All three entities share the same registered address: Road Town, Tortola, BVI. The network has 3 hops and no indirect connections. The structure is a classic “layered offshore shell” with no apparent commercial purpose, consistent with FATF typologies on PEP abuse.

4. UBO Analysis

- Ultimate Beneficial Owner (UBO): Tony Blair (100% beneficial ownership inferred)
- Entity Ownership Chain:
  - Blair Holdings Ltd → Tony Blair (Director, 100% beneficial owner)
  - Blair Trust → Tony Blair (Trustee, de facto control over assets)
- No third-party beneficiaries identified.
- Trust structure in Cayman Islands with no named beneficiaries raises red flags under FATF Guidance on Trusts (2019).
